CRA

CRYPTOCURRENCY MARKETPLACE

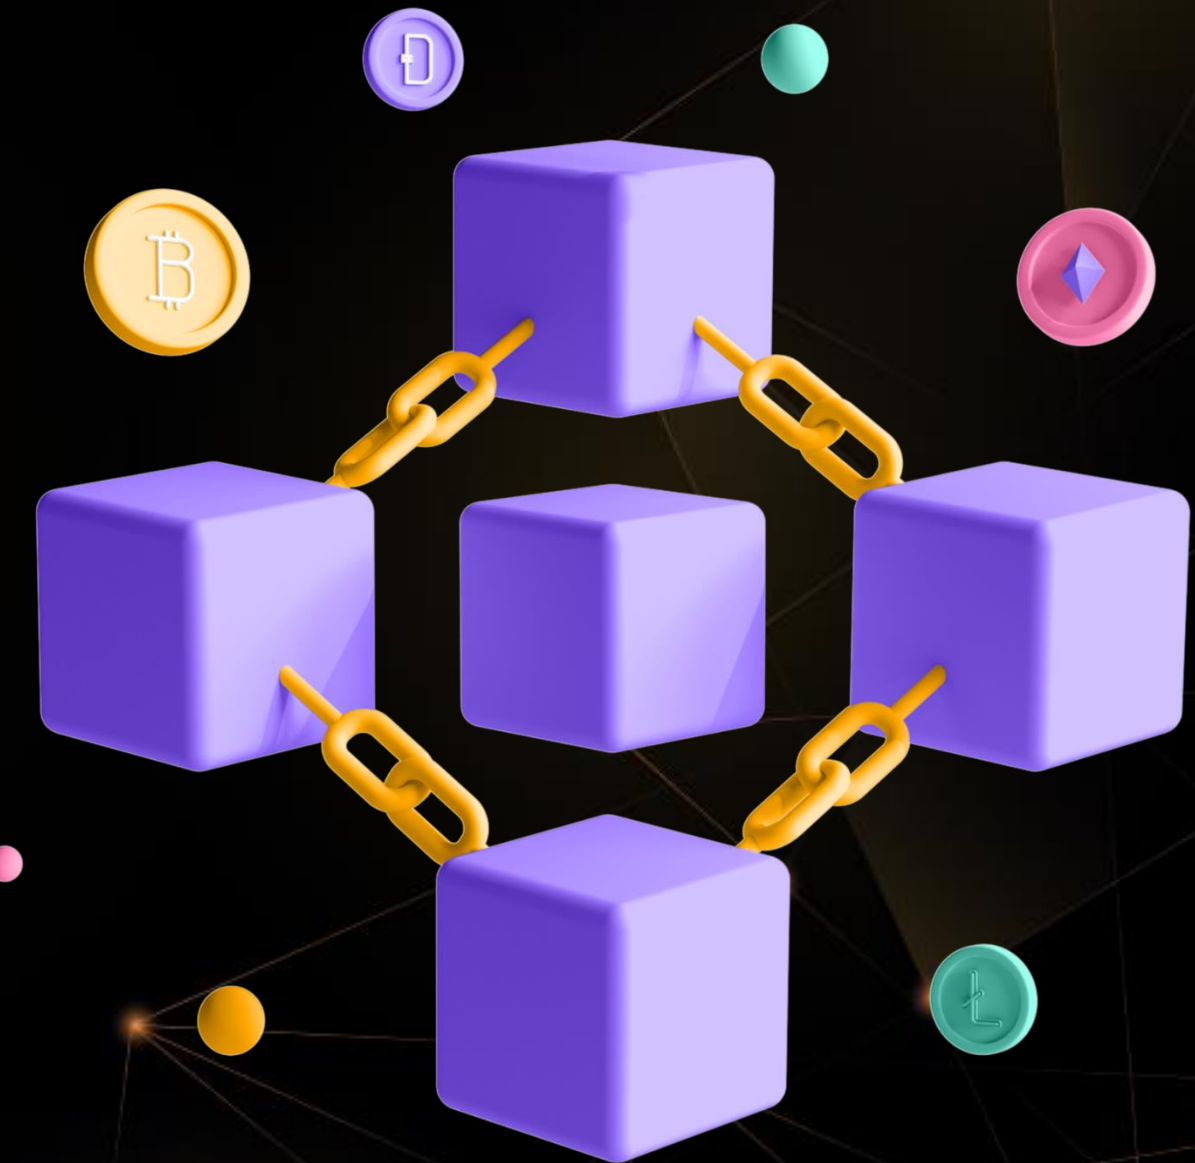

A completely decentralised marketing network for app producers and advertisers, the Cryptocurrency Ads Marketplace is built on the blockchain.

At Crypto Ads, we provide a wide variety of advertising options that enable us to increase traffic or monetize already existing visitors. For both new and ongoing marketing efforts, you may utilise our platform for tracking and reporting needs. Last but not least, Crypto Ads creates and supports a variety of ad kinds, including fresh, cutting-edge formats like playable advertisements.

What is decentralization ?

In blockchain, decentralization refers to the transfer of control and decision-making from a centralized entity (individual, organization, or group thereof) to a distributed network. Decentralized networks strive to reduce the level of trust that participants must place in one another, and deter their ability to exert authority or control over one another in ways that degrade the functionality of the network.

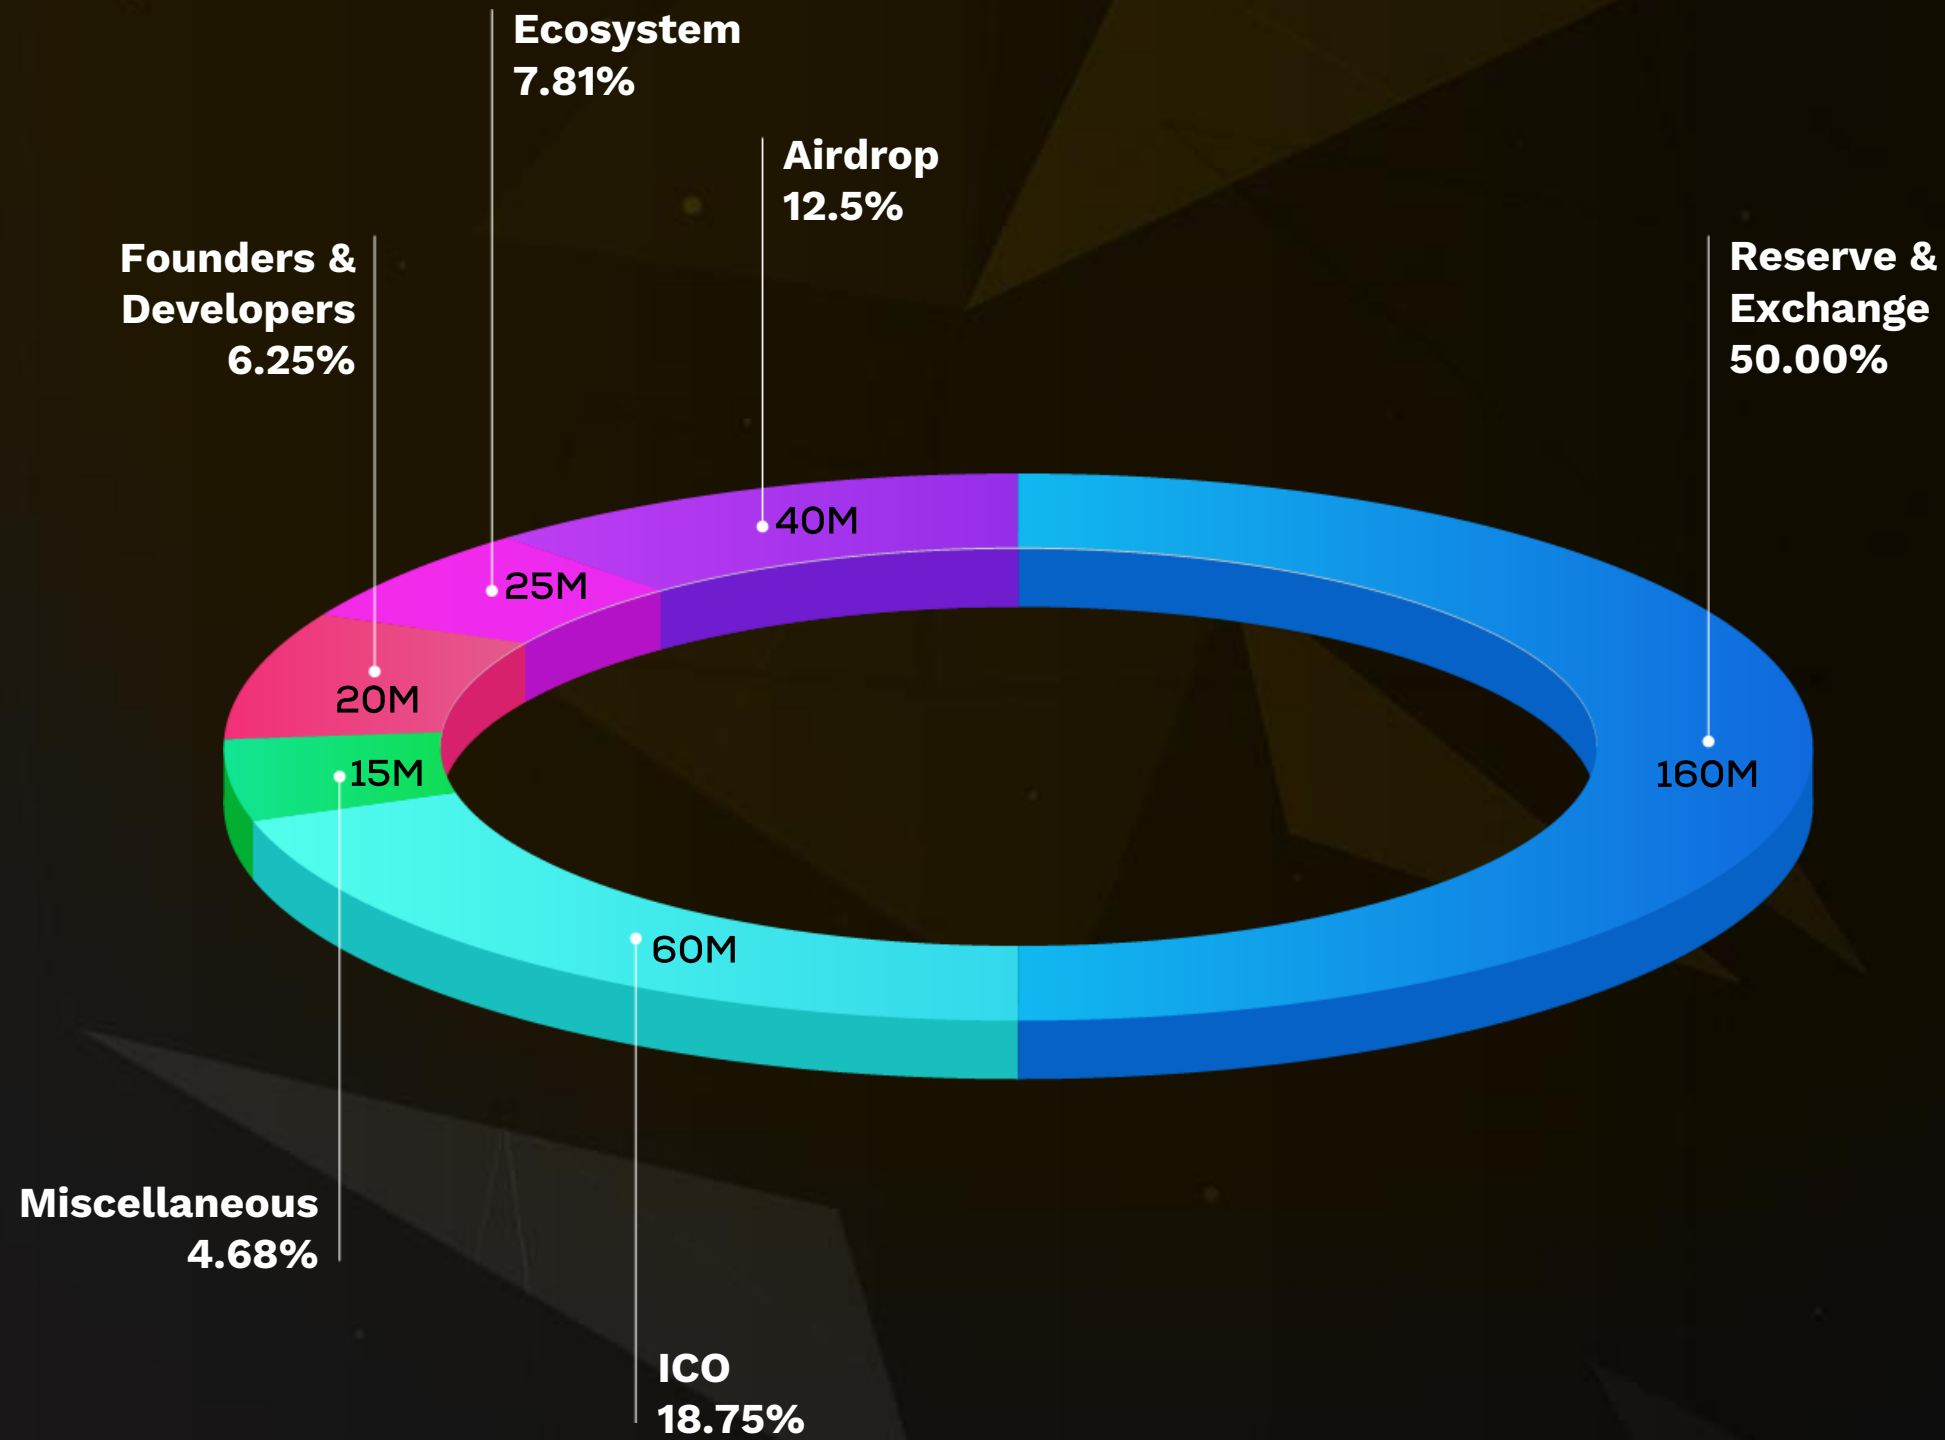

ABOUT US

- This token is completely transparent and 100% decentralized and there is no company administrator and no one can tamper with it.
- The need for better options was obvious in crypto, where fortunes were lost due to missing private keys and hacks. We set out to solve this problem and provide safety to all individuals and businesses who hold and use cryptocurrency.
- The CRA Token is launched on world wide in 1st Sep, 2023.
- The CRA token is an upcoming futuristic step in the digital era.
